SHELTER DOME

THINK OUTSIDE THE SQUARE
START A REVOLUTION IN A SPHERE
SHELTER DOME is an international brand subsidiary of SHELTER STRUCTURES, specialized in geodesic dome structures, offering the most creative space solutions for all kinds of events, customizing semi-permanent dome structures for relocatable theater, sports venues, and eco-living domes for campsites and resorts.

We supply our dome structures as well as turnkey space solutions for large high-profile events and projects all over the world. They come in sizes ranging from 3m to 100m in diameter to suit any event and location, all of which can be kitted out in vast amount of accessories supplied by us. As the leading manufacturer of geodesic dome structures, we place special emphasis on providing products of the highest standards of quality, safety, and functionality. All of our products are crafted and maintained with care.

We have gained a reputation as a reliable supplier by integrating engineering, production & installation departments under one roof. Behind the state-of-the-art products are dozens of dedicated engineers, 3D technicians, the most talented designers, and hundreds of experienced workers. Brought in the cutting-edge production technology, all CNC drilling and cutting ensured high precision of each single piece. You can rest assured that your structure is in safe hands as our construction team will take their time to ensure every detail exceeds your expectations. Each product and procedure are under strict tests before delivery.

To date, we have completed numerous projects home and abroad. “Support you anywhere at any time” not only by our structures but also our top-notch services. We look forward to working with you to create another masterpiece for your event.

INNOVATION, QUALITY AND DESIGN FREEDOM

Shelter Dome is always pursuing architectural integrity of the geodesic dome while showcasing beautiful and mathematically perfect geodesic geometry in structures that are futuristic, sustainable and visually inspiring.
Discover Glass/PC Dome Advantages

Light & Efficient Construction - Our glass and polycarbonate dome frames are manufactured using light but durable aluminum profile. It’s quick to assemble and can be easily transported to any destination.

Unique Appearance - We have standard and modern design. The outer glass cover with an additional skylight makes the dome more unique. It can provide protection from the elements and natural light in abundance.

Year-round Structures - They are all year round safe and virtually maintenance free glass domes. Our glass dome houses can adapt to more extreme weathers the working temperature range is from -20 to the working temperature range is from -20 to +150 degrees Celsius.

Unlimited Functionality - Unique, strong, light-filled, practical. Our glass domes are ideal for hotel and leisure facilities, relaxing spaces, growing spaces and can function as museums, galleries, exhibitions and attractions to make your venues stand out from the crowd.
